21	1 B	" 15 tons	"		
	B - Boxcar	RRy - heavy duty flatcar			1
	F/S - Flatcar with sidetracks	SS - " " "	T - tank car		

1. Comment. The present information appears to be incomplete because Soviet shipments are usually loaded at about 30 railroad stations in the Halle railroad district every month. Comparable data are available for eight of the railroad stations mentioned namely Altenburg, Altenhain, Halle, Krumpa, Merseburg, Meinsdorf, Taucha, and Wittenberg. The loading performance at these railroad stations remained about constant except for Altenburg where loadings increased considerably as a result of the transfer of the ration supply depot from Erfurt-Marbach to Altenburg. 25X1
2. Comment. On 15 April, components of the 82d Engr Bn of the 9th Mech Div which had transferred on 13 cars from Cottbus to Gussow on 9 April, probably returned to their military post. 25X1 25X1
